## Esso News Pays Tribute To Wives of Employees And all Female Readers

It is said that behind every successful man there is a woman. Behind every Lago employee that woman is a wife or a mother. In most cases it is a wife. Among her many other duties, she prepares dinners and the lunch bags for work and school.

Bur her interest in her husband's job goes beyond the preparation of lunch. She is interested in what he actually does and also in the Company he works for. She gets much of this information from the Aruba Esso News.

Proof of this is the favorable reaction received from the wives of employees on the recent article on "The Woman at Lago". This reaction dramatically reminded us that the Aruba Esso News is a regular companion for many of the wives of our employees. This issue is specially dedicated to these select readers.

It is easy to take a wife for granted — except during the holidays. Then she shines and is tireless in her efforts to make the home brighter. Her efforts are reflected in the many decorations around the house and

On Sept. 5, Mr. Swaen was conducting a pressure survey to check fouling of the slurry exchangers at PCAR. Just as he was going to install a test gauge on one of the exchangers, hot oil splashed in his face and on his arms. He sustained burns on his face and arms. But since he was wearing his rubber goggles, no eye damage resulted.

El 5 de septiembre, Sr. Swaen estaba realizando una encuesta de presión en los intercambiadores de polvo de PCAR, cuando se le derramó aceite caliente en la cara y las manos. # Christmas Tablecloth Brightens Your Home

After the Christmas tree and manger scene, nothing makes a home look more Christmasy than a Christmas tablecloth.

On pages 6, 8 and 9 are the patterns for the designs used in the finished tablecloth shown on this page. Small pictures of each corresponding section are shown as guides while decorating. To give this cloth your personal touch, use your own artistic talent in choosing the colors and decorations.

These designs can be used in many different ways — on scarfs for the buffet, radio or small tables; on cushion covers for the couch; on a tapestry for a child's room; on a child's Christmas skirt; to decorate Christmas gifts; or on a Christmas tree skirt. Choose the size cloth best suited to your purpose and use as many or as few of the designs as you wish.

## Useful when Telling Story

This cloth is also useful when telling the children the stories and legends of Christmas — the angels announcing the birth of the Christ child, the Christmas rose in their hands; the church symbolizing all religions; the evergreens as token of God's unfailing love for mankind; the candles put in the window to bid the Holy Family welcome; the sprig of holly which tells Christ's life story; and finally, the story of Santa Claus and his reindeer, with Rudolf leading the sleigh.

First decide how large you would like your tablecloth to be, and which designs you wish to use. Felt is suggested as it is easier to work with, and does not need hemming. Indianhead can also be used, but the patterns should then be cut slightly

larger, and a small hem turned under. The designs can also be traced on to the cloth, using carbon paper. The outline can then be embroidered in double chain or stem stitch, covering the carbon paper marks, and the design filled in with sequins to match.

## Felt or Indianhead

Felt was used for the tablecloth shown, 2 yds long by 1 yd. wide. All instructions are based on this size tablecloth.

Materials needed. Felt or Indianhead: 2½ yds. white, ¼ yd. pink, ½ yd. green, ¼ yd. red, ¼ yd. gold, ¼ yd. med. brown, small pieces of light tan, beige, blue, yellow, and purple or lilac; sequins and beads of varied sizes and colors; 12 yds. medium-width gold rickrack; silver & gold baby rickrack; 2 yds. gold braid; 6 yds. white or red fringe; 12 bright red buttons; and 5 small white roses.

## Cutting Instructions

Church (1). Of pink felt, cut one each of 1a, 1c, 1d, 1e, 1f; 2 of 1b. Of white felt, cut one each of 1g, 1h, 1i. Of gold felt, cut one of 1j.

Christmas Trees (2). Of green felt, cut one each of 2a, 2b, 2c; 2 of 2d. Of gold felt, cut one of 2e.

Candlestick & Candle (5). For each unit cut: of gold felt, one each of 5a, 5c. Of red felt, one of 5b. Of green felt, two of 5d; four of 5e.

General instructions. To make it easier for you to decorate the pieces of your tablecloth, the decorated parts are all numbered the same as the patterns. Refer to them as you go along. Using carbon paper, transfer the patterns to the wrong side of the felt and cut out. Turn over the felt and decorate the right side. In this manner your finished cloth will not have carbon paper smudges. The patterns given are all mirror images of the finished pieces. Keep the pieces pertaining to each section together. This will simplify assembly of the tablecloth when you have all your pieces decorated.

## Assembling Instructions

With all your pieces decorated and sewn together, you are now ready to assemble your tablecloth. Sew a fringe around the edge of your cloth and a row of medium-size gold rick-rack about ½-inch from the edge.

When arranging Santa, slip the top of the bag under his hand. Rudolf should be at the head of the reindeer, with the others arranged in pairs behind him. Use gold cord for the reins, slipping them through the halters, and tacking them down. The ends of the reins should be under Santa's other hand.

When assembling the candles and candlesticks, four bright red beads are used as holly berries to hide where the leaves

### Spool Doll

Three large spools, 14 smaller ones, some heavy cord, and some wool together make this stocking stuffer. Paint the 14 small spools pink, and the large ones white. Paint the eyes and mouth on one of the large spools, and drill a hole through the middle of one other large spool lengthwise. Use the picture as a guide in assembling the doll. Make a knot in the middle of the cord, or pass it through a wooden bead. String the three large white spools on both pieces of the cord for the head and body. The middle or tassels of the scraps of wool

spool lengthwise to form shoulder. String five pink spools on each end of the cord to form the legs. Pull the cord tight and end with a large knot, or tie a wooden bead to prevent the cord from slipping through the hole in the spool. Take another piece of cord and again either make a large knot or tie a large wooden bead at one end. Pick up two pink spools, pass the cord through the white spool which forms the shoulder, and pick up your last two pink spools. Pull the cord tight and end with either a large knot or a wooden bead. Make pompons and attach to the head, arms and feet to hide the knots or wooden beads. Paint three dots on the body to simulate buttons, or carefully hammer in nailheads.

## Jersey Standard's Worldwide Earnings Drop 3.8% In First Nine Months of 1965

Earnings of Standard Oil (New Jersey) and its affiliates worldwide for the nine months ending September 30 have been estimated at 769 million dollars. M. L. Haider, chairman of the Board, said that this was a decrease of 30 million dollars, or 3.8 per cent, from the 799 million dollars for the same period last year.

Indicated profits for the third quarter were 264 million dollars, essentially unchanged from the 262 million dollars for the same quarter a year ago. Results for the current third quarter represented an improvement over the trend reported for the first half. In the first half, the full impact of depressed prices in Europe was felt. This impact was carried over from the second half of last year.

Mr. Haider went on to say that there has been evidence of a recent strengthening in prices for distillates and fuel oils in many of our important European markets. Also encouraging, he said, is the continued firmness in the United States in improved realizations for motor gasoline and other petroleum products that developed in the second quarter.

Adversely affecting the 1965

earnings comparison with last year's were lower dividends received from non-consolidated companies as well as a rise in taxes paid.

The higher taxes include the effects of revisions in tax laws this past year by certain producing countries in the Middle East.

Jersey Standard's total revenues from sales and investments for the nine months were estimated at 9,371 million dollars, up 5.6 per cent over the comparable total of 8,876 million dollars for the first nine months in 1964.

Income and operating taxes, together with import duties, consumer taxes and other payments to the U.S. and foreign governments, totaled 3,215 million dollars for the first nine months of 1965.
